Biography:

Jim has a Bachelor's degree in engineering from Duke University, and is a registered professional engineer. He has been employed by the Traffic Engineering Branch of NCDOT for over 16 years, the last six and a half as the head of the Congestion Management Section. The section's responsibilities include all types of traffic analysis and planning for roadway projects, new developments and small municipalities and schools, as well as transportation planning and funding for Intelligent Transportation Systems (ITS) projects across the State. Previously, he spent four years the Town of Carrboro as the Town's transportation planner.
